

Roatan.Biz

Roatan Business Directory
Including Utila and Guanaja

Edition I

Developed By Tortuga Digital

Mango Tree Center, Coxen Hole Roatan, Bay Islands, Honduras
www.tortugadigital.com

introduction

www.Roatan.Biz

www.Roatan.Biz is the online phone directory for Roatan, Utila, Guanaja and the supporting businesses and medical facilities from the mainland. This directory is the most up to date as individuals and businesses can add or change numbers at any time during the year.

The following are the listings of businesses and individuals with their names, location, phone, cell and USA numbers as of June 1,2008. For updated listings go to www.Roatan.Biz

Dialing to Honduras

The country code for Honduras is 504. To call Honduras, dial your International Access Code + 504 + local number.

Examples:

From USA 011 + 504 + local number
From UK 00 + 504 + local number
From Hong Kong 001 + 504 + local number

Dialing from Honduras

If you're dialing abroad from Honduras, dial 00 + country code + area code + local number.

Examples:

To USA 00 + 1 + area code + local number
To UK 00 + 44 + area code + local number
To Hong Kong 00 + 852 + area code + local number

For assistance making international phone calls in Honduras, call the following telephone operators.

- International Call Collect, dial 190
- International call through Hondutel, dial 197
- Directory Assistance, dial 192

Cell Phone Numbers

Please note that cell phone numbers in Honduras changed in March 2007. Previously cell phone numbers had seven digits, with a prefix that began with 3, 8 or 9. They were changed to eight digits by adding a 3 to numbers that begin with 3 and by adding a 9 to numbers beginning with 8 and 9. So if someone gives you a seven digit cell phone number, they have probably forgotten to add the extra digit.

For example:

Previously 311-1111 is now 3311-1111.
Previously 877-7777 is now 9877-7777.
Previously 988-8888 is now 9988-8888.

Landline (Hondutel) numbers are also expected to change in the near future.
